

Section B - Supplies or Services and Prices

NOTES

This procurement is for **F**acilities, **I**nfrastructure, **G**eospatial, **H**omeland security, **T**echnical support services and **E**nvironmental **R**equirements (**FIGHTER**). The FIGHTER Contract Base Period is for four (4) years and will be from 1 Oct 2005 thru 30 Sep 2009. There are Three Option Periods and each will be for a two year period.

In addition, the Government intends to award a Technology for Infrastructure, Geospatial and Environmental Requirements (TIGER) contract for the CADD/GIS Technology Center and Partnering Agencies. The total amount of all orders placed against a combination of both the TIGER contract and this contract (FIGHTER) that Tyonek is submitting its proposal pursuant to, Solicitation No. W912HZ-05-R-0008, shall not exceed \$485,000,000. However, the minimum guaranteed amount is only \$250,000.00 for the Base Period. For more information refer to Section B, paragraph B.1.

Work will be accomplished under an Indefinite Quantity/Indefinite Delivery Contract under which it is planned to award Firm-Fixed Price (FFP), Firm-Fixed Price with Economic Price Adjustment (FP-EPA), and Time-and-Materials (T&M) type task orders in accordance with Federal Acquisition Regulation (FAR) Subpart 16.5 - Indefinite-Delivery Contracts, FAR Subpart 16.2, Fixed-Price Contract, and FAR Subpart 16.6, Time-and-Materials Contracts.

NOTES

B.1 MINIMUM & MAXIMUM AMOUNTS, INDEFINITE-DELIVERY/INDEFINITE-QUANTITY (ID/IQ)

The Facilities, Infrastructure, Geospatial, Homeland Security, Technical Support Services and Environmental Requirements (FIGHTER) is an Indefinite-Delivery/Indefinite-Quantity (ID/IQ) contract under which it is planned to award delivery orders using Firm Fixed Price and Time and Materials in accordance with

Federal Acquisition Regulation (FAR) Subpart 16.5 - Indefinite-Delivery Contracts and Subpart 16.6 Time-and-Materials, Labor-Hour and Letter Contracts. As stated in Section B (page 2), the Government intends to award an additional ID/IQ contract for Technology for Infrastructure, Geospatial and Environmental Requirements (TIGER) for the CADD/GIS Technology Center and its Partnering Agencies. Authorized buyers as listed in Section G, paragraph G1.4 can issue delivery orders under either FIGHTER or TIGER contract. The total amount of all orders issued against the combination of both contracts shall not exceed \$485,000,000 over a ten (10) year period of performance (48-month base period and three, 24-month option periods). However, the minimum guaranteed amount for the FIGHTER contract is only \$250,000.00 for the Base Period.

The Contractor understands that the authorized buyers, at their sole discretion, determine whether to place delivery orders under the FIGHTER contract or the TIGER contract depending upon the authorized buyers' requirements determination. A list of authorized buyers is found in Section G, paragraph 1.4.

B.2 PRICING

The Contractor shall perform in accordance with the scope as described in Section C - DESCRIPTION / SPECIFICATION / WORK STATEMENT and provide all of the items identified in Section B of the Schedule over the life of the contract, which includes Contract Line Item Numbers (CLINs) for "Catalog Items," "Non-Catalog Items," "Unpriced Items," and "Reimbursable Items."

(a) Catalog Items (CLINs 1001-1049; 2001-2049; 3001-3049; 4001-4049). The Contractor shall provide all of the items in the CLIN Description for each of the catalog equipment categories identified. The items shall be provided from a catalog, as defined in Federal Acquisition Regulation 2.101 under subsection (6)(i) of the "commercial item" definition. Contract type is Fixed Price, with Economic Price Adjustment (EPA).

(1) Catalogs established expressly for this contract are not acceptable.

(2) Use of a GSA Schedule as a catalog for this purpose is permissible.

(3) For each of the catalog equipment categories, the Contractor shall identify a catalog, catalogs, or portions of a catalog, from which it will provide the items. The Contractor shall identify the catalog for each equipment category by unique name/publication number or similar unique identifier. The Contractor shall likewise identify all subsequent publications of that catalog (descendants or logical derivatives).

(4) Copies of the catalogs, including catalog changes, shall be made available electronically to the Government to establish the price baseline for the application of contractual discounts for existing items and catalog additions, and to facilitate adjustments under the Economic Price Adjustment-Standard Supplies clause of this contract. An archive of the catalogs and any catalog changes thereto shall be maintained on a Contractor website available to the Government.

(5) Items provided from a catalog shall be compliant with the terms and conditions of the contract; the Contractor shall provide items that are compliant with Federal laws and regulations.

(6) The Contractor shall establish and maintain a web-based catalog for items provided under this contract that will include a description of the items available through the catalogs and ordering instructions.

(7) Catalog items will be purchased by delivery order. The catalog CLIN on the delivery order shall list the "1 lot" discounted amount for the catalog items ordered; in the description column, the following minimum information will be listed: catalog number, part number, description, item quantity, unit price and extended amount, discount applied, and the discounted grand total (which should equate to the "1 lot" amount).

(8) Catalog Ordering Constraints. The Contractor is responsible for assuring that items furnished under the contract from the specified catalogs are within the scope of the catalog equipment category descriptions as set forth in Section B of the contract, comply with the terms and conditions of the contract, and comply with Federal laws and regulations (e.g., TAA). Non-compliant and out-of-scope items shall be otherwise eliminated from the catalogs for ordering purposes and shall not be purchasable under the contract. After award, the Contractor shall identify in its ordering mechanism, or guide, the items from each catalog that are available for ordering under each of the catalog equipment categories. The Government reserves the right to have noncompliant items eliminated from ordering. Additionally, in the event that the Contractor provides items from catalogs that exceed the scope established by the catalog equipment category descriptions, the Government reserves the right to suspend ordering under the contract. The right of suspension is in addition to and not in substitution of any other rights of the Government under the contract.

(b) Discounts. A discount percentage shall be identified for each of the equipment categories or subcategories. The discount percentage shall be fixed for the life of the contract. However,

the Contractor may propose and the Government accept more favorable discounts at anytime.

(1) Items shall be provided from the catalog at a price that reflects the discount for the equipment category applied to the catalog price, or a lesser price.

(2) Pricing for catalog items, as discounted, shall not exceed the lowest available GSA Federal Supply Schedule price of the catalog holder.

(3) The discount for the catalog equipment category shall apply to items provided from the catalog and any replacement or revision to the catalog to include logical derivatives and descendants.

(4) The catalog discount shall be reviewed at the beginning of each option period.

(5) The price of the catalog items to which the discount is applied is subject to adjustment in accordance with the Economic Price Adjustment-Standard Supplies clause of this contract.

(c) Non-Catalog Items (CLINs 1050-1099). CLINs in this series are for specified non-catalog items. Enter a Unit Price for each CLIN/SLIN. Enter the OEM, Model, Manufacturer and Product Number. Contract type is Fixed Price with Economic Price Adjustment (EPA).

(1) Although these Non-Catalog Item CLINs are for ordering specified items at fixed prices, the prices are subject to adjustment under the Economic Price Adjustment-Standards Supplies clause of the contract. In order to facilitate price adjustments under the clause, certain catalog information shall be identified and provided. For each of CLIN items, the Contractor shall identify a catalog on which the item is listed. The Contractor shall identify the catalog for each of the CLIN items by unique name/publication number or similar unique identifier. The Contractor shall likewise identify all subsequent publications of that catalog (descendants or logical derivatives).

(2) A copy of the catalogs, including catalog changes, shall be made available electronically to the Government to facilitate adjustments under the Economic Price Adjustment-Standard Supplies clause of this contract. An archive of the catalogs and any catalog changes thereto shall be maintained on the Government website.

(d) Unpriced Items (CLINs 1100-1102; 2100-2102; 3100-3102; 4100-4102). CLINs in this series are for Unpriced Items. In accordance with FAR 15 (b) (3), ordering contracting officers must establish prices for orders of these items using the policies and methods of FAR 15.4.

(1) Within-Scope Items (CLINs 1100, 2100, 3100, 4100). The Contractor shall provide Within-Scope items under this contract on a firm fixed-price basis. Price is TBD. Within-Scope Items CLINs are provided for the ordering of items not covered by other contract CLINs that are within the scope of the contract as indicated in Section C of the contract; these CLINs include items needed to complete an order and/or other in-scope items that may not be currently available or identified as an existing CLIN in order to be fully responsive to the particular needs of a user. Items shall otherwise comply with the provisions of the contract.

(2) Reimbursable Items Enterprise Software Agreement (ESA) Software (CLINs 1101, 2101, 3101, 4101). The Contractor shall be reimbursed for any software acquired under an ESA. Contractor costs for ESA software shall be reimbursed at the prices charged, with no markup percentage for loadings, fee or profit.

(3) Reimbursable Items Transportation reimbursement for OCONUS deliveries (CLINs 1102, 2102, 3102, 4102). OCONUS shipping costs are reimbursable under Transportation CLINs. Allowable Contractor shipping costs shall be reimbursed at the prices charged to the Contractor plus DCAA allowable overhead charges, with no mark-up for profit.

(e) All delivery orders awarded pursuant to this contract, whether awarded on a T&M or FP basis will be priced in accordance with the pricing set forth in the Labor Rate Tables in Exhibit 1. The labor rates in this section reflect the fully-burdened rates for each labor category and will apply to all direct labor hours.

(f) In the event work is required for which the Contractor can be expected to incur costs markedly different from those normally incurred, e.g., work Outside the Continental United States (OCONUS), consideration will be given to pricing on other appropriate basis. In such situations, additional costs that cannot be appropriately charged under the Other Direct Costs (ODCs) contract line item numbers (CLINs) for Equipment or software will be negotiated on a case-by-case basis.

(g) T&M Labor/FP Rates (CLINs 1202-4202/CLINs 1201-4201).

(1) Government Site Rates. When performing at Government sites, the Contractor shall furnish fully burdened personnel rates. The Government will provide only office space, furniture, and office equipment and supplies.

(2) Contractor Site Rates. When performing at a Contractor site, the Contractor shall furnish fully burdened personnel rates that include loads for office space and all normal supplies and services required to support the work. This includes, but is not limited to, telephones,

faxes, copiers, personal computers, postage (to include courier services such as Federal Express), ordinary business software (e.g., word processing, spreadsheets, graphics, etc.), normal copying and reproduction costs.

(h) Labor rates and Other Direct Cost (ODC) fixed rate mark-up percentages for use in pricing the FP and T&M Delivery Orders are set forth as follows:

- (1) Labor. The Labor Rate Table represents fully-loaded hourly rates for each skill classification. The fully-burdened labor rates shall include all direct, indirect, general and administrative costs and profit associated with providing the required skill. The fully-burdened labor rates shall include all labor and labor-related costs, such as, but not limited to, the following list of representative labor-related costs: salaries, wages, bonuses to include stock bonuses, incentive awards, employee stock options, stock appreciation rights, employee stock ownership plans, employee insurance, fringe benefits, contributions to pension, other post-retirement benefits, annuity, employee incentive compensation plans, incentive pay, shift differentials, overtime, vacation time, sick pay, holidays, and all other allowances based upon a comprehensive employee compensation plan. Contractor site rates shall also include Contractor-provided facilities, furniture, equipment, supplies, tool kits, employee training and overhead amounts required for work at Contractor site rates. This includes, but is not limited to, telephones, facsimile machines and their telecommunications lines, copiers, personal computers, postage (to include courier services such as Federal Express), ordinary business software, such as word processing, spreadsheets, graphics, normal copying and reproduction costs. The use of uncompensated overtime is not allowed. Contractor shall provide hourly rates based upon a 40-hour work week (2,080 hours per year).
- (2) Program Management Support Costs. Contract-level program management support costs are included as a percentage of each individual labor category rate, and encompass support for contract-level management, reporting requirements and related travel and meeting attendance costs associated with the Contractor's program management staff, as it relates to overall management of this Contract. As a result, these program management support costs are allocated among all of the delivery orders issued under this contract. These "program management" support costs are differentiated from individual delivery order manager support costs, which are billed as hourly labor rates against individual

delivery orders for direct support to the effort performed under those delivery orders. This will result in direct billings at the delivery order level for labor hours in the appropriate manager category, to specifically support program or project management for the delivery order.

- (3) ODCs. The ODC CLIN consists of incidental delivery order related materials. For ODCs under FP DOs a fixed mark-up percentage for indirect loading and profit shall apply. For ODCs, under T&M DOs, a fixed mark-up percentage for indirect loading shall apply. Profit or fee is not allowed. The mark-up percentages shall be fixed for the duration of the contract, to include option years, if exercised. The cost of general-purpose items required for the conduct of the Contractor's normal business operations will not be considered an allowable ODC in the performance of this contract.

(i) The rates that are set-forth in the contract can be used on either T&M or FP delivery orders.

j) At the request of either the Contractor or the Government, the Contractor may, throughout the life of the contract, propose additional labor categories, rates and descriptions. These additional categories, rates and descriptions will be negotiated on a case-by-case basis. The additional categories, rates and descriptions proposed, upon determination by the Government that they are fair and reasonable, will be incorporated into Section B of this contract.

B.3 DELIVERY ORDER NUMBERING

Delivery order numbers (Note: Order numbering shall be in accordance with DFARS 204.7004 - Only the issuing office (VCCO) is authorized to use the numbers 0001-9999). Contracting Officers placing orders may use their own order numbers in accordance with their standard ordering formats, as long as their order numbers are not duplicative of the issuing office (VCCO) order numbers assigned in accordance with this paragraph.

B.4 ADDITIONAL DISCOUNT

Additional discount, from the established catalog discount, may be provided under individual orders as negotiated by the ordering contracting officer. Any and all agreements to reduce pricing under this provision shall be subject to all other provisions set forth in this contract. Contract provisions may not be waived nor additional products (not specified in Section B) be sold as part of the price reduction agreement.

B.5 RESERVED

B.6 ALTERNATIVE COSTS/PRICING

Individual delivery orders may require the Contractor to restructure its price proposal to provide for alternative pricing on a basis other than unit cost/price that considers other factors that allow the Government to realize the best value, such as, but not limited to the total cost of ownership or annual cost to maintain or support. For example, instead of, or in addition to, providing a cost proposal based on fixed hourly rates, specific delivery orders may require pricing on a per seat/workstation, usage rates, or other similar basis to determine the total life cycle cost.

B.7 CONTRACTOR JUSTIFICATION FOR OTHER DIRECT COSTS (ODCs)

All materials required for performance of delivery orders issued under this contract that are not Government-furnished shall be furnished by the Contractor. The Contractor shall utilize ESI source software and contract source equipment in accordance with applicable provisions. In addition to any other materials, the Contractor shall separately identify ESI source software items and contract source equipment in each DO proposal. For ESI source software, the Contractor shall request approval to order from the Government supply sources. For proposed materials that are not from the identified Government supply sources for ESI source equipment or contract source equipment, the Contractor shall provide a justification why those sources are not being utilized to support approval by the Contracting Officer. Ownership of supplies acquired by the Contractor with Government funds, for performance of this contract, shall vest with the Government. The Contractor shall include a detailed description of all proposed ODCs in individual DO proposals.

When a delivery order is issued that includes ODCs the following shall apply: Other Direct Costs (ODCs) cannot exceed 20% of the value of the Support Service Order. Allowable ODC purchases by the Contractor require Contracting Officer and Contracting Officer Representative approval prior to the purchase being made. Unless otherwise negotiated by the Contracting Officer, pricing for ODCs will be in accordance with FAR 16.601 - material at cost, including, if appropriate, material handling costs as part of material costs - plus the User Funding Fee.

In accordance with DFARS Subpart 239.73, Acquisition of Automatic Data Processing Equipment by DoD Contractors, the Contractor shall submit the documentation required to the Contracting Officer (CO) for approval prior to entering into any equipment lease or purchase agreement.

B.8 LABOR RATE TABLE

The Labor Rate Table represents fully-loaded hourly labor rates for each skill category. The table reflects the required labor categories to accomplish the requirements described in Section C. The Contractor shall provide one composite rate for work performed at the Contractor site and one composite rate for work performed at Government sites for each labor category. The contract has a base period of four years, and three options of two years each. The contract provides ten, twelve-month periods. These ten years represent labor rate years.

NOTES:

Lack of registration in the CCR database will make an offeror ineligible for award. SEE CONTRACT CLAUSE 252.204-7004 Alt A ENTITLED "CENTRAL CONTRACTOR REGISTRATION (52.204-7) Alternate A (Nov 2003)."

THE SF 33, THE BIDDING SCHEDULE, AND SECTION L (REPRESENTATIONS, CERTIFICATIONS), ACCURATELY COMPLETED, MUST BE RETURNED WITH YOUR OFFER OR IT MAY BE REJECTED AS NONRESPONSIVE.

Award will be made in accordance with 10 U.S.C. 2304(c)(5).

CLAUSES INCORPORATED BY FULL TEXT

52.219-18 -- Notification of Competition Limited to Eligible 8(a) Concerns. (June 2003)

(a) Offers are solicited only from small business concerns expressly certified by the Small Business Administration (SBA) for participation in the SBA's 8(a) Program and which meet the following criteria at the time of submission of offer --

- (1) The Offeror is in conformance with the 8(a) support limitation set forth in its approved business plan; and
- (2) The Offeror is in conformance with the Business Activity Targets set forth in its approved business plan or any remedial action directed by the SBA.

(b) By submission of its offer, the Offeror represents that it meets all of the criteria set forth in paragraph (a) of this clause.

(c) Any award resulting from this solicitation will be made to the Small Business Administration, which will subcontract performance to the successful 8(a) offeror selected through the evaluation criteria set forth in this solicitation.

(d)

(1) *Agreement.* A small business concern submitting an offer in its own name shall furnish, in performing the contract, only end items manufactured or produced by small business concerns in the United States or its outlying areas. If this procurement is processed under simplified acquisition procedures and the total amount of this contract does not exceed \$25,000, a small business concern may furnish the product of any domestic firm. This paragraph does not apply in connection with construction or service contracts.

(2) The Tyonek Manufacturing, LLC will notify the Vicksburg District, Vicksburg Consolidated Contracting Office Contracting Officer in writing immediately upon entering an agreement (either oral or written) to transfer all or part of its stock or other ownership interest to any other party.

(End of Clause)

(a) This contract is issued as a direct award between the contracting office and the 8(a) Contractor pursuant to the Partnership Agreement dated February 1, 2002, between the Small Business Administration (SBA) and the Department of Defense. Accordingly, the SBA, even if not identified in Section A of this contract, is the prime Contractor and retains responsibility for 8(a) certification, for 8(a) eligibility determinations and related issues, and for providing counseling and assistance to the 8(a) Contractor under the 8(a) Program. The cognizant SBA district office is:

U. S. Small Business Administration
Anchorage District Office
510 L. Street, Suite 310
Anchorage, AK 99501-1952

(b) The contracting office is responsible for administering the contract and for taking any action on behalf of the Government under the terms and conditions of the contract; provided that the contracting office shall give advance notice to the SBA before it issues a final notice terminating performance, either in whole or in part, under the contract. The contracting office also shall coordinate with the SBA prior to processing any novation agreement. The contracting office may assign contract administration functions to a contract administration office.

(c) The Contractor agrees that--

(1) It will notify the Contracting Officer, simultaneous with its notification to the SBA (as required by SBA's 8(a) regulations at 13 CFR 124.308), when the owner or owners upon whom 8(a) eligibility is based plan to relinquish ownership or control of the concern. Consistent with Section 407 of Pub. L. 100-656, transfer of ownership or control shall result in termination of the contract for convenience, unless the SBA waives the requirement for termination prior to the actual relinquishing of ownership and control; and

(2) It will not subcontract the performance of any of the requirements of this contract without the prior written approval of the SBA and the Contracting Officer.

(End of Clause)
