(End of Summary of Changes)

product solution may include products that are not incorporated in the contract, as well as, contract products.

**\*H27.2.** Products that are not incorporated in the contract may be included - on the same Delivery Order with contract products - under the Within Scope CLIN indicated herein. Items furnished under the "Within Scope" CLIN must be commercially-available products. The Ordering Contracting Officer's determination will be made by evaluating the relationship between the contract and non-contract items, whether the non-contract items are within the scope of the contract, and, the dollar value of the contract products being ordered on the subject Delivery Order. Prior approval by the **COR** is required for orders containing only non contract "Within Scope" CLIN items. \*

**H27.3.** Customers will contact the Contractor and request a combined quote for the items that they need. The Contractor will provide a Firm-Fixed Price (FFP) quote using the current contract prices established for products available on the contract; and, other pricing, in accordance with this section, for the items offered under the "Within Scope" CLIN.

**H27.4.** For contract products, the contract terms and conditions will apply, unless modified by the mutual agreement of the Contractor and the Ordering Contracting Officer. For "Within Scope" items, the Contractor's quote will include any special terms and conditions that apply, which may include, but are not limited to: warranty length and type, warranty response times, delivery times, and, inter-operability capabilities between the contract products and the "Within Scope" items. At a minimum, the terms and conditions offered for the "Within Scope" items will be in accordance with the vendor's commercial practices. These terms and conditions will be subject to agreement by the customer.

**H27.5.** (a) Quotes submitted by the Contractor using the "Within Scope" CLIN shall include the following information:

- (1) For each product, either the contract CLIN or vendor part number for "Within Scope" items,
- (2) Contract item description, or, for "Within Scope" items, the vendor catalog description,
- (3) The contract price, or for "Within Scope" items, the vendor catalog price page, a summary of current GSA Schedule contract prices and the quoted price(s),
- (4) The Contract Specification Section that applies to the "Within Scope" items.
- (5) Any special terms and conditions that apply to the "Within Scope" items will be stated in the individual delivery order.
- (6) A statement as to whether maintenance service for the "Within Scope" items will be available under the contract via (Generic) Existing Systems (Components) Maintenance, open-market maintenance through the Contractor, or, by contacting the appropriate vendor for the "Within Scope" items.

(b) The pricing of "Within Scope" items by the Contractor shall adhere to the following guidelines:

- (1) The price offered shall be at least the most-favorable GSA Schedule price available for that item. or,
- (2) In the event this pricing method is not available, prices will be negotiated by the Ordering Contracting Officer.

(c) Copies of the quotes provided to customers will also be provided by the Contractor to the COR and the Contracting Officer.

## H32. ACCESSIBILITY

All electronic and information technology (EIT) procured under this contract must meet applicable accessibility standards at 36 CFR Part 1194, unless an exception exists, or, for commercial items, unless and to the extent that individual standards cannot be met with supplies or services available in the commercial marketplace in time to meet delivery requirements.

### \*H33. Contractor Manpower Reporting Requirements

If applicable, any Army requiring activity shall include the language below in the statement of work. A CLIN in Section B is not needed since the contractor will complete this reporting without additional cost to the government.

“The Office of the Assistant Secretary of the Army (Manpower & Reserve Affairs) operates and maintains a secure Army data collection site where the contractor will report ALL contractor manpower (including subcontractor manpower) required for performance of this contract. The contractor is required to completely fill in all the information in the format using the following web address <https://contractormanpower.army.pentagon.mil>. The required information includes: (1) Contracting Office, Contracting Officer, Contracting Officer's Technical Representative; (2) Contract number, including task and delivery order number; (3) Beginning and ending dates covered by reporting period; (4) Contractor name, address, phone number, e-mail address, identity of contractor employee entering data; (5) Estimated direct labor hours (including sub-contractors); (6) Estimated direct labor dollars paid this reporting period (including sub-contractors); (7) Total payments (including sub-contractors); (8) Predominant Federal Service Code (FSC) reflecting services provided by contractor (and separate predominant FSC for each sub-contractor if different); (9) Estimated data collection cost; (10) Organizational title associated with the Unit Identification Code (UIC) for the Army Requiring Activity (the Army Requiring Activity is responsible for providing the contractor with its UIC for the purposes of reporting this information); (11) Locations where contractor and sub-contractors perform the work (specified by zip code in the United States and nearest city, country, when in an overseas location, using standardized nomenclature provided on website); (12) Presence of deployment of contingency contract language; and (13) Number of contractor and sub-contractor employees deployed in theater this reporting period (by country). As part of its submission, the contractor will also provide the estimated total cost (if any) incurred to comply with this reporting requirement. Reporting period will be the period of performance not to exceed 12 months ending September 30 of each government fiscal year and must be reported by 31 October of each calendar year. Contractors may use a direct XML data transfer to the database server or fill in the fields on the website. The XML direct transfer is a format for transferring files from a contractor's systems to the secure web site without the need for separate data entries for each required data element at the web site. The specific formats for the XML direct transfer may be downloaded from the web site.”\*

\*Note: For in-theater contracts, requiring activities have the option of requiring more frequent reporting. Information from the secure web site is considered to be proprietary in nature when the contract number and contractor identity are associated with the direct labor hours and direct labor dollars. At no time will any data be released to the public with the contractor name and contract number associated with the data. For internal Army analysis, the reports and queries from the database shall not contain proprietary data. \*
